Letter to our Shareholders

Dear Shareholders:

We are pleased to present you with very **encouraging results** once again for the **third quarter of 2025**.

We have succeeded in shielding **Nexus AG** from the ongoing crises and sector-specific challenges, achieving another period of **strong growth**. This is a remarkable performance — particularly given the current economic climate in our core markets. **Within our industry, too, our development stands out clearly from that of our peers.**

Moreover, we continue to see **highly promising opportunities** for **further growth** and therefore look to the future with confidence despite the overall economic environment.

This particularly applies to the prospect of **additional project wins**. In most of our core countries, **hospitals and diagnostic facilities** are preparing for **major replacement investments in discontinued software systems**. We see competitors — especially in Germany, France, Switzerland, and Poland — withdrawing from the market, leaving systems that will need to be replaced.

We have **positioned ourselves strongly** in this competitive environment. Over many years, we have proven ourselves to our customers as a reliable and innovation-driven partner. Hospitals know that in this volatile market, we pursue a long-term, customer-oriented strategy. Our numerous development projects and our focus on AI integrations are currently reinforcing that trust. Our strategy is to embed AI functionalities directly into users' software workflows, thereby ensuring that new AI-driven features are implemented rapidly in day-to-day clinical practice.

Trend of Business

We are very pleased to report that we successfully continued our **strong growth trajectory** during the first nine months of 2025.

Revenue increased by **9.9%** year-on-year to 209,671 KEUR. EBITDA rose by **12.4%** to 45,928 KEUR. EBIT climbed **15.8%** to 31,484 KEUR, while EBT increased **15.2%** to 32,303 KEUR. Earnings per share grew **15.3%** from EUR 1.18 (9M-2024) to EUR 1.36. Operating cash flow for the first nine months of 2025 reached **43,264 KEUR**, up 56.1% from 27,716 KEUR in the prior-year period. As of September 30, 2025, liquidity stood at **MEUR. 127**.

Three acquisitions completed during the year contributed consolidated revenues of **MEUR 3.8**. Excluding these effects, the Group's revenue growth would have been **7.9%**, while EBIT growth would have reached 17.4%. **Integration costs for the acquired companies** totaled approximately **2,400 KEUR** in 2025.

Currency effects were mainly driven by the stronger Swiss franc and Polish zloty compared with the previous year. Contributing approximately KEUR 312 to sales and KEUR 60 to EBITDA.

___ Dr. Ingo Behrendt, Chief Executive Officer (CEO)

Company acquisitions

In recent months, we have **further strengthened** our **strategic market** position through three attractive acquisitions.

At the end of April, we acquired a majority stake in **Medical AI Information & Analytics GmbH**, based in Holzwickede. The company is known for its **innovative AI solutions** and will play a key role in **accelerating and automating billing processes** within our software modules.

Our customers can now enhance their NEXUS products with **AI-based billing code** generation and **anomaly detection** for optimized clinical decisions — a major step forward in **AI-driven** user support for clinical operations.

At the end of July, we acquired a majority interest in **CRITEX GmbH**, based in Regensburg. The company specializes in **software solutions for in-vitro fertilization** and is a market leader in this segment. With this acquisition, we significantly expanded our international product portfolio in the field of **women's and infant health**. Under the marketing slogan '**All for her, all for the baby,**' we are defining our new segment strategy.

In the same direction, we completed the majority acquisition of **ICT Healthcare Technology Solutions B.V.**, based in the Netherlands, in early August. The company specializes in **software for obstetric processes** — in particular, modern **CTG monitoring and telemonitoring systems**. Through ICT Healthcare Technology Solutions B.V., we are further strengthening our international presence in the area of **women's and infant health**.

We are investing **substantial resources** in **restructuring and integrating** these new teams. However, we are confident that these investments are well justified and that the resulting market and portfolio expansions will **significantly strengthen** our position in the **eHealth market**.

Business Results

We are proud to have achieved these **strong results while also realizing considerable commercial success**. During the first nine months of 2025, we continued to expand our **order backlog** and won major projects in **Germany, France, Austria, and Poland**. Among the many noteworthy new contracts, several key **HIS (Hospital Information System) projects** stand out: The **VAMED Group Germany** entrusted us with an order covering a total of **21 rehabilitation centers and hospitals**. We also won **Erzgebirgsklinikum**, with four locations, where we will replace existing SAP IS-H and i.s.h.med installations. In **France**, we were awarded **HIS projects** with the **Groupe Saint-Paul in Martinique**. In **Poland**, **Medicam Clinics** in Gryfice selected our solutions. Beyond these **HIS projects**, we also achieved strong success in **portal and diagnostic projects**, particularly in **Spain and Germany**.

On the **project side**, we remain in the midst of intensive implementation work. Many major projects are currently in the roll-out phase, while new projects are entering the implementation stage. The latter include numerous **innovative developments** that will be delivered in the coming months.

Highlights Q3 2025 – Business development

- + Strong sales growth of 9.9% in the first nine months of 2024
- + Increase in pre-tax profit by 15.2%
- + Cash flow rose sharply by 56.1% to MEUR 43.3

OUTLOOK: STAY ON COURSE:

The year **2025** has so far been both **highly successful and demanding**. With revenue growth of around 10% and an increase in EBT of 15%, we have demonstrated a **strong continuation of our sustained growth trajectory**. At the same time, we have worked intensively on **expanding our portfolio** through acquisitions and completed a series of complex processes to delist the company.

In addition, **exciting new contracts** and promising ongoing tenders are expected to reach decisions in the coming months. These developments offer excellent opportunities to further expand our market share.

We are extremely proud of these results — especially against the backdrop of the rapid pace of technological and market change and the current economic challenges. We aim to stay the course through the remainder of the year, sharpening our focus on optimizing business processes. With this approach, we intend to continue the successful growth path of recent years and achieve our annual targets.

Warm regards,

Dr. Ingo Behrendt

Company Profile

Nexus AG develops and sells software solutions for the international healthcare market. With our core Hospital Information System (NEXUS / HIS) and integrated diagnostic modules, we have a unique broad and interoperable product range, which can cover almost all functional requirements of hospitals, psychiatric institutions, rehabilitation facilities and diagnostic centers within our own product families.

NEXUS employs approx. 2,046 people, is present in ten European countries with its own sites and serves customers in an additional 42 countries, partly via certified dealers. Thanks to continuously growing demand for NEXUS products, we have been able to build up a large customer base in recent years and regularly show increases in sales and results.

1. SEASONAL INFLUENCES ON BUSINESS ACTIVITIES

As part of the NEXUS Group's operating activities, there are seasonal effects due to the receipt of maintenance revenue in the first quarter of each financial year (the effects on earnings of the corresponding incoming payments are recognised over the financial year) and the significantly higher demand and project invoicing in the fourth quarter of each financial year.

___ Statement from the Legal Representatives

To the best of our knowledge, and in accordance with the applicable reporting principles for interim financial reporting, the interim consolidated financial statements give a true and fair view of the assets, liabilities, financial position and profit or loss of the Group, and the interim management report of the group, which includes a fair review of the development and performance of the business and the position of the Group, together with a description of the principal opportunities and risks associated with the expected development of the group for the remaining months of the financial year.
