About Nexus AG

Nexus AG develops and sells software solutions for the international healthcare market. With our core Hospital Information System (NEXUS / HIS) and integrated diagnostic modules (NEXUS / DIS), we have a unique product range, which can cover almost all functional requirements of hospitals, psychiatric institutions, rehabilitation facilities and diagnostic centers within our own product families. The focus of product development is on easy-to-use process support that increases efficiency and safety in patient treatment. NEXUS employs approx. 1,500 people, is present in seven European countries with its own sites and serves customers in an additional 23 countries via certified dealers. Thanks to continuously growing demand for NEXUS products, we have been able to build up a large customer base in recent years and regularly show increases in sales and results.
