About Nexus AG

Nexus AG develops and sells software solutions for the international healthcare market. With our core Hospital Information System (NEXUS / HIS) and integrated diagnostic modules, we have a unique broad and interoperable product range, which can cover almost all functional requirements of hospitals, psychiatric institutions, rehabilitation facilities and diagnostic centers within our own product families.

NEXUS employs approx. 2,000 people, is present in ten European countries with its own sites and serves customers in additional 32 countries, partly via certified dealers. Thanks to continuously growing demand for NEXUS products, we have been able to build up a large customer base in recent years and regularly show increases in sales and results.
